VOL. XVII, NO. 11.

THE BLAIRMORE ENTERPRISE, THURSDAY, MARCH 16, 1926.

FIRST AID EXAMINATIONS

The First Aid examinations, under the auspices of the St. John Ambulance Association, took place at Hillcrest on Friday evening, March 12th, under the supervision of Ed. Royle, superintendent of mine rescue and first aid, the examiner being Dr. J. A. Key, of Bellevue, assisted by Fred Padgett and John Mills, also of Bellevue.

Twelve candidates presented themselves and were highly successful. A very high standard of efficiency was displayed, due to the untiring efforts of the instructors, Messrs. John W. Makin and H. Instone.

RATEPAYERS' MEETING AT ORPHEUM THEATRE TONIGHT

Notices are posted, calling for a public meeting of ratepayers to be held at the Orpheum Theatre tonight, commencing at 7:30, when the complete report of Auditor E. D. Battrum upon his special audit and investigation will be submitted.

The report comprises what is probably one of the most concise and exhaustive reports in the history of organized municipalities in the province.

Dr. J. S. Hynes left by last night's train for points as far east as Montreal. Before returning he will likely take a post graduate course at New York and visit Rochester.

MIDGETS WIN CHAMPIONSHIP

The Blairmore Tuxis Midgets added another trophy to their list when they defeated the Bellevue Tuxis here on Saturday night last, and landed the championship of the Crows' Nest Pass. The score was four to two, and the game was refereed by G. Van Gotsen. Following were the line-ups:

Bellevue—Hutton, goal; Bogusch, Morris, defense; Brooks, Jordan, Mattson, forwards; Hlasney, Dambos, subs.

Blairmore—D. Hamilton, goal; Anderson, Kemp, defense; Martini, McDonald, Joyce, forwards; Penman, Veero, Morency, subs.

The Blairmore Midgets annexed the provincial championship the week previous.

The seventh of the series of what dryers held under the auspices of Greenhill Temple No. 10, Pythian Sisters, held in the Lodge Hall last night, was indeed a very successful affair. The hall was beautifully decorated for the occasion. The lucky winners were: Ladies' first, Mrs. W. J. Evans; second, Miss Vina McKenley; consolation, Mrs. H. Hales Gents' first, Mr. McKelvie; second, D. Martin; consolation, Mr. J. Howe. The big feature of the evening was the novelty two-step, prizes being won by Miss Nysson and Mr. Horace Vaughan. Misson's orchestra was in attendance and all voted a real good time.

COUNCIL DECIDES TO BUY MOTOR FIRE TRUCK

The first regular semi-monthly meeting of the town council took place on Monday night, with Mayor Fairmer presiding. Councillors Gillis, Morgan, Paterson, Ferguson, Hays, and Saitors and Secretary Kelly were present.

The minutes of last regular meeting and of a special meeting held on March the 12th, were approved as read, and a batch of accounts, including some \$58 for fighting fire at the Romeo residence, were passed for payment, subject to approval by committees.

Mr. Thomas Cherry made an offer to the town for the purchase of two lots adjoining his residence property on Stuart Street. It was shown that one of the two lots was made practically valueless through water inundation, while the other lot was also somewhat damaged. Mr. Cherry offered \$30 for the two and as some of the council had personally examined the property, the council by motion decided that the offer of Mr. Cherry for the purchase of lots 3 and 5 in block 18, Plan \$319-1, be accepted, provided that Mr. Cherry file with the secretary-treasurer an undertaking to indemnify the town against all damage that might accrue from the diversion of water that has its natural course through the said lots.

Mr. T. Folino's offer of \$75 each for two lots on Fifth Avenue south, was not considered beyond the fact that the council felt that property in that section was too valuable to be sacrificed.

Mr. W. H. Chappell, as chairman of the school board, made application to the council for permission for the chief of police to act as trustee officer. The council had no objection to offer, provided Mr. Spence could see fit to handle the persons.

A report upon the relief work being done in the east end of Victoria Street was submitted and upon motion it was decided that this work proceed under the supervision of Councilor Morgan and Chief Spence.

Two applications were received for the position of town solicitor, and upon motion were ordered tabled.

The question of a fire truck was given consideration and after some discussion on the matter, it was moved by Councillors Ferguson and Hays that a Chevrolet one-ton truck chassis be purchased from the Crows' Nest Pass Motors at a cost of \$1015, same to be equipped with box and fire fighting apparatus, the total cost to be in the neighborhood of \$1215.

Council was notified by the secretary of the Blairmore Board of school trustees that a vacancy had occurred on that board and asking that steps be taken to fill the vacancy. Upon motion by Councillors Ferguson and Gillis, pursuant to the above request, Mr. Kelly as returning officer and secretary-treasurer was instructed to give the necessary statutory notice for the nomination and election of a school trustee.

Question of supplementing the water supply came up and in this connection the following letter from the provincial department of public health was read:

Edmonton, March 12, 1926.
Mr. Arthur J. Kelly,
Secretary-Treasurer,
Blairmore, Alberta.

Dear Sir:
I am today in receipt of your letter of the 1st instant.
The Provincial Board of Health would not give its approval to any plan providing for the injection of polluted water into the domestic supply, no matter what the advantage might be from a fire protection standpoint.

The water from the river, if not sewage polluted, might be disinfected by chlorine injected into it by a chlorine apparatus, such as supplied by Messrs. Wallace & Tremain, of 1366 Liberty Street, New York, constructed near to the intake of the pump.
The practice is, however, not one that can be recommended, although it is used. For example, Calgary injects the Bow River into its Elbow River supply, and

SPECIAL MEETING OF TOWN COUNCIL

A special informal meeting of the council was held on Saturday night last for the purpose of hearing appeals from representatives of labor for relief.

In view of the following government order in council it was found that the council were doing all in their power under existing conditions. The following extracts are self explanatory:

1. That, where distress exists as the result of unemployment and the situation has reached a point beyond the financial resources of the municipality, and the municipality having approached the province, and the province makes proper representation to the Federal authorities, the Federal Government will contribute one-third of the disbursements made on account of unemployment relief, conditional upon the participation on equal basis by the province concerned.

2. That, where in certain provinces there are organized districts, without municipal government, in which unemployment exists, and the provincial government finds it necessary to administer a system of unemployment relief, the Federal Government will reimburse the provincial government concerned to the extent of one-half of such disbursements for relief.

3. It is the desire of the Federal authorities that the provisions of this ordinance be interpreted to cover only disbursements for food, clothing and shelter, and under certain conditions, medical attendance.

The minister further recommends that the Federal government agree to participate in the cost of work provided by municipalities to relieve unemployment on the following basis:

(a) Municipality to bear the nominal cost, that is to say, the cost of carrying on the said work in the normal working sense.
(b) Estimate of normal cost to be approved by Federal Government's engineer in the department of public works.
(c) That municipal, provincial and Federal governments bear equally and jointly the actual cost over the estimated normal cost, thereby encouraging the creation of employment where possible.

The above provisions are effective only until March 31st, 1926.

The council made plain to the labor deputations that all appeals for relief made to them, were being properly considered and asked that anyone needing assistance should make their case known to the relief committee of the council.

For the first time in history, automobiles crossed Sydney harbor on ice this winter. A couple of weeks ago a car bearing a young couple broke through and the young lady occupant was drowned in thirty feet of water. The body has not yet been recovered. The man was rescued in an exhausted condition.

disinfects the Bow River water, but the city engineer of Calgary keeps a very close watch on this disinfection and the analyzed results of it.

In your case, I do not care to advise its adoption, unless it can be shown that it would be proper to be carried out.

You might, in the light of this information, have your engineer look further into the matter, and thereafter if you decide that he should take the matter up with me, I shall be glad to go further into it with him.

Yours truly,
R. B. OWENS,
Provincial Sanitary Engineer.

To the council, the need for greater water supply was urgent and upon motion it was decided to ask Mr. Wallace, the government's district engineer, to go into the matter, examining the prospects of supplementary supply from Gold Creek, Lyon Creek, Burns Creek or from well adjacent to the Old Man River.

Communication from James G. Ewan, offering to sell a large livery stable building on Sixth Avenue to the town for fire hall purposes, was filed.

Application from Sergt. Duncan for a reduced rate for electric current for the Court House property, was also filed.

Council adjourned at 11:15 p.m.

ROD McDONALD TAKES OVER HOTEL AT ROWLEY

Rod McDonald, well known in the Crows' Nest Pass amongst the mining community, was a visitor in town Wednesday, on his way to take over the management of the new hotel just opened up at Rowley. Rod has many friends here in Drumheller and he invites them up to his new place whenever they may get an opportunity.—Drumheller Review.

Rod has been international board member for District 18, United Mine Workers of America, for the past several years.

ALL FOOLS DAY

Don't forget the annual sale of work to be held by the Ladies' Aid of the United church on Thursday, April 1st, in the Star Bakery building. The sale will commence at 3 o'clock and tea will be served till six. Candles, home cooking, flowers, plain and fancy needlework, etc. Also a fish pond for the kiddies. Here's an opportunity to buy your Easter flowers.

NOMINATIONS NEXT TUESDAY

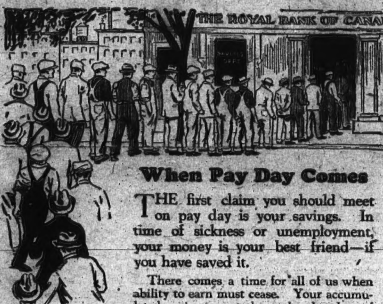

Notices are posted, calling for nominations on Tuesday next, from 11 o'clock till noon, at the office of the secretary-treasurer of the Town of Blairmore, for a candidate to fill the vacancy on the school board.

After many months of uncertainty,

not able to work at anything like full capacity, better times seem in sight for the coal mines of the Crows' Nest Pass district. Big orders are being secured, assuring work on a more continuous scale for many more miners, and with a bigger output railway men in this district will reap some benefit from the increased tonnage rolling to the markets. The project for coal bunkers at Vancouver promises a still stronger demand for coal from that district, and Cranbrook is more vitally interested in developments of this kind than is apparent on the surface. When the railway men are busy, it usually means that everyone else will be, which in turn means better times all round. The song of the wheel on the rail is the song of prosperity, especially when they carry freight trains laden with potential wealth the district is giving forth to the world.—Cranbrook Herald.

FIRST AID CONTESTS ARE POSTPONED

The Crows' Nest Pass First Aid Association on competitions, proposed to be held at Coleman on May the 1st, have been postponed on account of conditions, to Tuesday, June the 1st, ED. ROYLE, Secretary-Treasurer.

When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

MUNICIPAL FINANCE

An important index to the general financial condition of the country is that provided by the record of the payment of municipal taxes. In this connection it is noteworthy that whereas at the end of June last loans by the chartered banks in Canada to cities, towns, villages and municipalities throughout the Dominion amounted to \$76,107,924, on 31st December last outstanding loans of this character were only \$52,735,704, a reduction of \$23,372,220, or more than 30 per cent, having been effected in the six months' interval.

During the past two years the assessable value of rateable property in cities, particularly in the western provinces, has been further adjusted so as to more nearly approximate realizable values. This adjustment has resulted in a substantial decrease in assessable values and the assessments have been further reduced by the exemption from taxation of property acquired by the taxing authorities through tax sale proceedings. While the assessed value of land in outlying suburbs of the larger towns and cities has tended to decline, the opposite tendency is evident in rural municipalities. Improvements generally are being subjected to higher assessments for taxation purposes. On the other hand, municipal taxation continues to show a downward trend. In rural municipalities uncollected taxes and the balance of tax holdings unrealized have decreased during the past several years, but the showing of the urban municipalities in this respect is less favorable. The demand by investors for tax sale certificates of villages and towns has not been so marked as in the case of those of older cities and of rural municipalities. In towns and cities the general trend of expenditures appears to be downward, and while in a number of rural municipalities and villages new construction work has entailed considerable outlays, efforts are being made to economize wherever possible. The expenses incurred in connection with health and sanitation have gradually increased each year in the rural municipalities and villages; in towns there has not been much change in this respect, but in the cities such expenditures have shown a downward tendency. The operation of utilities by the various towns has in some cases been attended by indifferent results, but in the cities, municipal enterprises have in almost all cases been operated on a profitable basis. The general trend in debenture payments has improved, and several western municipalities which found themselves in that position have so arranged their affairs that none of them are technically in default at the present time. There are, however, a number whose affairs are in an unsatisfactory position, but adjustments are under consideration which, when effected, will entirely obviate loss of principal, and the loss by adjustment of interest charges will be only nominal. Monthly Commercial Letter, Canadian Bank of Commerce.

Kid Osborne, Calgary's middle-weight sensation, and Ernie McCabe, of Edmonton, have been matched for a ten-round bout at Mirror, Alberta, the date for which has not yet been set. McCabe mixed with Roddie McDonald here some months ago.

Advertising is business ammunition, but if you only use enough of it to load a pop-gun, you'll not make very much noise.

BACHELOR ELKS
GIVE ENTERTAINMENT

The bachelor members of the local Elk lodge were hosts to their married brothers at a concert and luncheon given following the regular meeting last night. A splendid programme of vocal and instrumental music, as well as speeches, recitations, etc., was rendered. Towards the close, a vote of thanks was accorded Messrs. Cox and Griffiths of Coleman, the Amateur Orchestra and others who took part in the programme. The married members hope to return the treat some time next month.

The Frank school report will appear in our next issue.

Inspector Field, of the R.C.M.P., was down from Fernie over Tuesday.

Mr. W. M. Whiddington, architect, of Lethbridge, was in town last week end. Mr. Whiddington will submit plans of a town office and fire hall building for a central site also plans for extension to the present town office for accommodation of fire fighting apparatus.

Fines amounting to \$200,000 were imposed against individuals and companies charged with conspiracy in connection with the marketing of fruit and produce throughout Western Canada, by a court at Vancouver. W. E. Carruthers, of Calgary, was included in the number, who were defended by Mr. A. McLeod Sinclair, K.C., of Calgary.

WRIT ISSUED IN SMITH CASE

EDMONTON, Mar. 16.—A writ was served on George P. Smith by Sheriff John Rae on Monday evening, under instructions from the attorney-general's department. The action against the former minister of education is on this occasion upon a civil charge for money received, being the amount of \$3250 as shown in the recent criminal trial in connection with the fraudulent printing invoice case. The statement of claim was issued by A. L. Smith, Calgary, who was the counsel for the government in the previous trial. The writ was served on Mr. Smith shortly after his arrival in the city from the coast where he has been spending the past few weeks. During the interval since the trial of criminal charge which resulted in Mr. Smith's acquittal, the attorney-general's department has been considering further action in the case and has decided to enter suit under a civil charge. The usual procedure will be followed and the case will go to trial at an early date. Mr. A. L. Smith, K.C., will again be counsel for the government, but whether further counsel will be engaged has not been decided.

ALBERTA COAL FOR ONTARIO

After investigating the causes for non-delivery of Alberta coal ordered from Hamilton, officials have discovered that the coal en route from the west has been sidetracked at various places along the line to make way for other commodities. The answer given by railway officials when complaint was made was that the coal was being shipped at cheap rates and would have to take its chance. If the railway companies intend taking this attitude there is no future for Alberta coal in Ontario. Unless deliveries can be made promptly people will not buy the coal.

Speaking of Alberta coal, The Express would be pleased to have its readers send in short notes of their experiences in using it this winter. Do you like it? Do you find it satisfactory? How do you use it, and what do you find the best method of firing? These are some questions we would like to see discussed.—Edmonton (Ontario) Express.

THEN; AND NOW

Thirty years ago, beer was five cents a glass and the lunch was free. Eggs were three dozen for a quarter; milk was five cents a quart. The butcher gave liver to the cat, and treated the kids to bologna. The hired girl was satisfied with \$2 per week and did the washing. Women did not powder or paint, smoke, play poker and shake the shimmy.

The men wore boots and whippers, chewed tobacco, spat on the sidewalk, worked 11 hours a day, and never went on strike.

A kerosene lamp and stereopticon in the parlor were luxuries. No one was operated on for appendicitis.

Folks lived to a good old age just the same and walked miles to wish their friends a Merry Christmas.

Today, everybody rides in automobiles or airplanes, plays poker, shoots craps, plays the piano with their feet, goes to the movies, smokes cigarettes, drinks synthetic gin and blames the H.C.L. on the Republicans.

They never go to bed the same day they get up and think they are having a wonderful time.

This is the age of suffragettes, prohibition, excess taxes and profiteers, and if you think life worth living, we wish you a Happy New Year.—American Exchange.

Ex-Mayor McLeod, writing to The Enterprise from Portland, wishes to be remembered to a few of his friends here—that's all.

An auction sale of horses will be conducted by Auctioneer Gerry at Lundbreck on Wednesday of next week, commencing at 10 a.m. See bills for further particulars.

WATERTON LAKES HOSTELRY
MODERN TOURIST HOME

Proof that the Great Northern tourist hotel at Waterton National Park, to be opened for the season of 1927, will be modern in every particular is furnished in a plan of the new hostelry just received by the Herald from the department of interior, Ottawa.

The hotel will overlook Waterton Lake bay and town, commanding a striking view of the land-engulfed waters and mountain ranges rising to meet the clouds. At the rear of the hotel to the north lies picturesque Lake Linnet where a bath house and beach will be located. This will be reached by an attractive path.

Entering the spacious rustic lobby the visitor will find himself in the lap of luxury in an environment of mountain wildness. There is a passage for loading and unloading baggage which extends out into an ornamental garden surrounding the ballroom. Flanking the lobby on the east will be the dormitories and lounge and bridge rooms, looking out on an ornamental garden on the brow of the lake. On the west of the lobby will be found the dining room and grill. The ball room is on an extension northward into the ornamental garden and overlooking Lake Linnet bath-house.

On the present main road, on the foot of the townsite hill on the north, will be built the hotel garages. Special buildings for the help lie between the hotel proper and the garage. Adjoining the dining-hall for the help is a recreation room which indicates that the Glacier Park Hotel Company knows how to take care of its staff. This is quite in harmony with the type of help employed at their hotels for most of the employees are college girls and men replenishing their purses for the next school year.—Lethbridge Herald.

1925 HIGHWAY CONSTRUCTION

Since the province of Alberta commenced its highway building program under the federal aid plan, the work starting at the beginning of the season of 1924 and continuing during 1925, a total expenditure has been made of \$1,755,729, of which amount \$179,563 was spent on the main highway between Calgary and Edmonton. These and other interesting facts are contained in the annual report of the department of public works just made public.

The total expenditure of \$1,755,729 on highways by the province in this period, says the report, "means a possible grant from the federal authorities of approximately \$677,000."

"An outstanding feature of the main highway program since its inception in 1924," continues the report, "is the mileage of all weather roads constructed, that is, gravel surfacing, which during the season of 1925 amounted to 172 miles, in addition to 29 miles surfaced during the previous year."

During the year, the department also constructed 354 bridges of which 29 were of steel and the balance timber. Also, 159 bridges were repaired or refloored.

The year also saw the completion of the Alberta and British Columbia boundary survey undertaken by the commission appointed in 1915 from the international boundary to the north boundary of township 97, a distance of approximately 780 miles. From the north boundary of township 97 to the north boundary of the province, a distance of 175 miles, is still unsurveyed.

It is stated that the only small creeks that will be open to anglers the coming season in this district will be Mill Creek, flowing into the South Fork, and Tod Creek, flowing into the Middle Fork rivers.

The Lethbridge Christian Community of Universal Brotherhood, Limited, have been incorporated under the Companies Act of the Province of Alberta with a capitalization of ten thousand dollars and head office in Calgary.

An office building containing 11,000 people can be emptied in twenty minutes. And it is thought that the town of Amherst, N.B., has been reduced to ten minutes by the use of radio orators.

W. F. Dunlop, who for thirty-six years has served as secretary of the town of Amherst, N.B., has been remunerated with an allowance of \$500 per annum.

Grows Hair in 30 Days Money Back If It Fails

A minute a day is sufficient time to devote to this new method scalp treatment. Van der Liquid Scalp Massage is applied with a patented rubber applicator attached directly to the bottle. The healing mechanism is fed directly to the hair roots through flexible rubber nipples. Van der stops falling hair—grows new hair in 30 days. Ask us about our 30-day treatment plan. We give a money-back guarantee. Get started now.

FOR SALE BY BLAIRMORE PHARMACY

Buy with Care!

Three Things Determine Whether the Price You Pay for Your Automobile is High or Low—

Check Value For Value

Check the value in the car you buy on the basis of the advertised f.o.b. price. Chevrolet quality, power, appearance, easy riding, dependability and economy provide the reasons why over 2,000,000 people have bought Chevrolet cars.

Investigate the Cash Delivered Price

The purchaser of any automobile pays for freight, tax and handling charges. Chevrolet's low delivered price includes these charges—there is no padding.

Check Time Financing Charges

The financing charges when buying a Chevrolet on time are the lowest in the world. And these minimum charges include financing and fire and theft insurance. No other charges—no side notes to be signed.

Because of Chevrolet's low cash delivered price and the lowest of financing charges, you obtain the greatest value at the lowest cost, whether you pay cash or buy your CHEVROLET on the G.M.A.C. Time Payment Plan.

Come In—Let us show you how we can save you money in buying a Chevrolet on time.

It's Easy to Pay for a Chevrolet

ALBERTA LEGISLATION

(By John Mackenzie)

During the past week the Alberta Legislature has made progress with a number of Bills on various subjects.

In addition the Spray Lakes situation was discussed for two days, resulting finally in the passage on Thursday evening of a resolution stating that the House was of the opinion that the Spray Lakes development of Banff National Park; that the increasing demands for power in the province made it necessary that increased power should be immediately available; and that the Government of Canada should assign to the province of Alberta the said water power site so that the province might either develop the site as a public utility or effectually control and regulate the supply of power in the interests of the people.

The Opposition amendment was in practically the same terms, but omitting the declaration that the project would not interfere with the scenic beauty of the park.

Premier Brownlee characterized the time spent on debating this amendment as waste, as the resolution and amendment were so alike that it would take a Philadelphia lawyer to distinguish the difference between them.

The province's action, said the Premier, in putting forward this resolution, was to ensure that the people of the province effectually control this development.

He ascribed the delay in getting the project under way to the Dominion Government, which had refused to issue to the province a license, and only on Wednesday had he received a wire from Ottawa stating that the Dominion wished that any application for the development of power in the parks area should be in the hands of parliament itself.

The Government was prepared on receipt of a license, to allow the Calgary Power Company to go ahead with the building of a dam at Spray Lakes, and if afterwards the province decided to operate the scheme as a

public utility to buy the dam from the company. If, on the other hand, they decided to allow the company to continue, they would be in a position to regulate the development in the interests of the people of the province. They could not afford to have a private company, deriving its authority from the Dominion, hold such a site. In that case the province would have no control.

Hon. C. R. Mitchell and other Opposition members spoke. Mr. Mitchell claimed that the province was responsible for the delay. They should state their intention as to whether they were in favor of public ownership or not.

Messrs. Henry and Brown, of Edmonton, were not in favor of the province developing the site as a public utility. Steam power was cheaper in Edmonton than Spray Lakes power would be, and there were important waterpowers in the north that should also receive consideration if any move for development as a public utility was to be made.

Alex. Moore, Cochrane, said the C.P.R. was behind the Calgary Power Company, as they wished the power to electricity their line through the mountains. Whoever controlled Spray Lakes would control all the power sites on the Bow river.

The resolution was passed by a vote of 35 to 9, Mrs. McClung and the Independent and Labor members voting with the Government.

The public accounts for 1925 were laid on the table Thursday by Hon. R. G. Reid.

They showed the financial situation of the province to be considerably improved as compared with last year, with a surplus of \$188,019.

The total assets of the province were \$162,472,249 and the liabilities \$85,400,190.

The revenue for 1925 was \$11,531,025 and the expenditure \$11,343,006.

The net bonded debt at the end of December was \$79,463,838.

A new Municipal District Act has been before the House this week, and considerable discussion has taken place as to its provisions.

The problem of indigents is a difficult one with some municipalities, and a wish was expressed that the province assume the care of indigents. Hon. R. G. Reid, in reply said that the problem would be how to raise the money. He believed the indigents could be more efficiently, economically and sympathetically handled by local bodies.

The limit of responsibility by municipalities for sick indigents in hospitals was established at \$200 per year per patient.

Labor members favored the doing away with the property qualification in municipal elections. They claim that it was absurd that an individual could be premier of the province without a property qualification, and yet couldn't be a municipal councillor.

The amendments to the Municipal Hall Insurance Act, dividing the province into zones with varying rates, and abolishing the surtax, was adopted with very little discussion.

During the week a deputation of Grande Prairie residents met the Cabinet, urging upon them that the province settle the Royal Bank's claim on the E.D. & B.C. railway without delay, and terminate the present agreement with the C.P.R.

The premier in reply stated that the province would not make settlements on this matter until they were sure that they had made the best deal possible. They had already saved the province \$300,000 by delaying. They were trustees for the whole of the people of the province, and had to consult their interests as well as those

of the people in the north, as the province had an investment of \$300,000,000 in these lines. He could say nothing further at present, but would make a statement before the end of the session.

STUDENTS AT ALBERTA UNIVERSITY

Total registration of students at the University of Alberta for the academic year ending June 30, 1925, was 1254, of whom 746 were enrolled in arts and science, 220 in medicine, 73 in law, 40 in pharmacy, 28 in agriculture, 81 in correspondence courses, 2 B.D. and 34 in the school of nursing.

Alberta born students numbered only 272, with 869 from all parts of Canada, 219 other parts of the empire, 139 from the United States and 58 from other countries.

World Wide Reforms

All worth-while reforms are slow of accomplishment because the people of the world are essentially conservative in their thought and action. It is perhaps well that this should be so, otherwise nations might be plunged into the acceptance of unsound theories and hastily conceived and ill-considered policies leaving loss, suffering and ruin in their wake.

But there is such a thing as being too ultra-conservative, and so bound by old-time precedent and usage that wise progress and sane advancement is made extremely difficult and for long years impossible. Such extreme conservatism is baneful. Danger there may be from the optimistic reformer who urges his pet theory or scheme as a "necessity" for the life from which mankind and the body politic may suffer, and as the key which will open the door to Utopia. But there is equal danger from the chronic pessimist who scoffs at everything new and declares "it won't work."

For a long time there have been advocates of a reform of the system of currency in Great Britain, and of the systems of weights and measures in Great Britain, Canada, United States and some other countries. These advocates have consistently and persistently urged the adoption of the decimal and metric systems. They have carried on a work of education which apparently is going to bear fruit. At all events, official confidence is being gained, both in Britain and the United States, of the growing strength of the demand for reform in these matters.

Great Britain, with its world-wide trade and commerce, cannot afford in these days of rapid communication and transportation, and intense world competition, to cling to its preposterous archaic system of pounds, shillings and pence, when all the other great trading nations have adopted the decimal system.

Nor should Canada and the United States continue to adhere to their equally out-of-date systems of weights and measures with twelve inches to a foot, three feet to a yard, 1,760 yards to a mile, two pints to a quart, four quarts to a gallon, not to mention grains, ounces, pounds, pecks, bushels, tons, etc., with avoirdupois and Troy weights.

The adoption of the metric system of weights and measures would enormously simplify not only all international commerce but our own domestic business as well. Soldiers of all nations serving in France soon discovered how simple and easily understood is this metric system, and undoubtedly their experiences and knowledge is having its effect in influencing the more pronounced agitation for this reform which is in evidence throughout the world.

Another question which is coming to the front is the reform of the calendar. Interested as it is in the removal of all causes of misunderstanding, and in promoting the most friendly internationalism, the League of Nations is taking an active part in connection with these reform movements, and at the present time one of its committees is giving consideration to numerous plans submitted to it, providing for a reform of the calendar. One of the few plans reserved for further study out of the large number submitted is a Canadian plan, and provides for a year of thirteen months, each of 38 days. Under this plan the first day of each month would be a Sunday. The present names of the months would be continued, but a new month created out of the last half of June and the first half of July. In order to make up the full 365 days of the year, there would be one day at the end of the year to be known as "Year Day." The convenience of having all months of equal length, and of having the days of the week always falling on the same dates, can hardly be overestimated.

There would naturally and inevitably be some confusion at first during the short period of readjustment from the present time-honored systems and customs to the new, but the admittedly great economic gains and conveniences which would result from these proposed changes would surely far outweigh the temporary inconvenience.

Canada led the world in adopting the new universal system of standard time under which the globe is mapped out in zones within which the time is uniform. Canada, like the United States, has a decimal monetary system. Why should the Dominion not lead the way on this continent at least by adopting the metric system of weights and measures, and also throw the weight of its influence into the scale in favor of a reform of the calendar?

Falls Heir To Fortune

Orphaned at the age of five, a bride of 16, a scrubwoman at 17, tolling for a meagre wage to augment the small pay earned by her husband, Selena Campbell, 17 Madison, Wis., now sees the world at her feet.

She has fallen heir to \$750,000. An uncle she never knew, John Randall, died recently at Indiana Harbor, Indiana, leaving an estate of \$750,000 without a will and without known relatives except Selena Campbell.

Her husband, Michael, is a sign painter.

Customer: Why does that dog sit there and watch me all the time?
Waiter: I suppose you have the plate be always eat from.

MOTHERS—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms, and Children all ages.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

New Steel Takes Razor Edge

Modern Product Developed by Ohio Man Is Hard, Yet Pliable

Many of the qualities of the celebrated Damascus steel are said to be found in a modern product which an Ohio man has developed by a secret process. He combines iron and carbon in such a way that the resulting steel will hold an edge of razor sharpness, is tough and can be driven through other steels without breaking. A bar of the material, fifteen inches long, was tempered to five different degrees, one end at it being hard enough to cut glass, a section was sharpened like a razor and would cut dry hair without heating or stopping, while other parts in the same bar would cut off a spike under blows of a hammer, would spring or could be bent backward and forward with the thumb and forefinger without breaking. Vanadium is an important element used in the preparation of the steel. —Popular Mechanics.

"DIAMOND DYES" COLOR-THINGS NEW

Just Dip To Tint or Boil to Dye

Each 16-oz. package contains directions in simple English for dyeing or tinting. Colors in blue, red, yellow, green, orange, pink, purple, brown, black, white, and many others. Dyes for silks, ribbons, skirts, waists, dresses, sweaters, stockings, coverings, hangings, etc.

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Through Service For Steamship Passengers

Canadian Pacific Railway inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway has inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday, until April 26th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the Pacific provinces, eliminating as it does, changing trains at Montreal.

Oil Flame Burns In Water

Remarkable Discovery Has Been Made By Belgian Scientist

A Belgian scientist has succeeded in discovering an oil flame that will burn for weeks submerged in water without going out, and by which most of the heat loss of an ordinary boiler is avoided. A device similar to a carburetor blows a spray of crude oil mixed with air into the burner under pressure. Water is kept out of the burner until the flame is well started, and then allowed to rise around the flame and cover it. The inventor is said to have obtained almost perfect efficiency by putting the flame directly into the water.

Want Designs For Cenotaph

Fund For Prince Albert War Memorial Is Now Complete

The Prince Albert War Memorial Association has decided to go ahead with the selection of designs for a \$10,000 memorial to be erected in the city, which is to be unveiled and dedicated next Armistice Day. The association is inviting Canadian architects to submit designs without delay. The amount required has been raised by voluntary subscription and the memorial is to occupy a commanding position in Victoria Park on the summit of the hill which overlooks the city from the south.

Wedding Gown of Banknotes
The reign of prosperity in the rubber producing areas of the Dutch East Indies, resulting from the high price of that product, has brought on a spending spree among the natives. The Borneo Post tells of the wedding of the daughter of a native rubber king, in which the bride's gown was made entirely of Dutch banknotes, sewn together and cut in elaborate patterns, regardless of their value.

Famous Carpet Being Exhibited in Paris

Made in Persia And Is Valued At \$120,000

Valued at \$120,000 a famous Persian carpet recently arrived at Paris for exhibition in the Louvre. It was known to collectors as a "hunting carpet" and was intended to be covered by slaves to be spread as a resting place for the Shah, Lions, tigers, panthers and stags alternate with flowers of exquisite shades of cream and rose. France, if the carpet remains with the Shah, is \$200,000 customs duty. Its owner has already refused an American offer of \$200,000 for the carpet. It was formerly part of the Austrian Imperial collection, and was sold with the consent of the Austro-Hungarian government. According to tradition the carpet was given to the Austrian Emperor Leopold in 1698 by Peter the Great of Russia.

CHILDREN LIKE THEM

Baby's Own Tablets Are Effective and Easy to Give

You do not have to coax and threaten to get the little ones to take Baby's Own Tablets. The ease with which they are given, as compared with liquid medicines, will appeal to every mother. None is sullied or wasted. You know just how big a dose has reached the "little stomach." As a remedy for the ills of childhood arising from derangements of the stomach and bowels they are most satisfactory.

Mrs. Rose Voyer, Williamette, Ore., says: "I used Baby's Own Tablets in the Canadian Northwest and found them a wonderful medicine for children's troubles, especially indigestion and constipation. I have also given them to my children for simple fever and the realizations accompanying teaching and they always give relief. I can recommend Baby's Own Tablets to all mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Self Defence

"Do you admire the latest dances?" "No," declared Miss Cayenne. "Yet you were out on the floor." "I'd rather dance than look at them."

The people who talk without thinking and those who think without talking always make each other tired.

BLOOD WILL TELL

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest, and if not attended to endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Could Stand Greater Unity

Canada and Australia Not As Intimate As They Should Be

Every dominion within the British empire will join in celebrating the Australian Commonwealth upon the 15th anniversary of the establishment of British Government on the island continent. Although Captain Cook first raised the Union Jack on Australian territory in 1770, this taking formal possession of the unknown land, that British rule was formally set up in Sydney. From the world being one of a penal settlement for poor creatures sentenced to transportation, Australia has grown to be a self-governing dominion of states, paying its way, nevertheless steadily towards definite ideals, upholding rigidly British standards of justice and right, and yet developing a strong national spirit.

The relations between Australia and Canada have not been so close or so intimate as they might have been. Both countries are to blame in varying degrees for this. We are Australia's nearest neighbor within the empire looking eastward. We are her eastern link with the centre of the empire. The closer Canada and Australia stand together, the stronger the empire becomes by that linking up. Though each country has its own individual national aspirations, and each its own destiny to achieve, there are many directions in which they can walk together.

To Aid Starving Indians

Royal Canadian Mounted Police Leave For Far North With Provisions

A detachment of the Royal Canadian Mounted Police left Fort Smith recently on a long trek into the barren lands in an effort to save a band of Eskimos from death by starvation.

Word reached Fort Smith of the plight of the natives and Corporal Blake, a constable from the regular staff and a special constable left with two Indian dog team drivers. A large quantity of food was carried on the sleds. The location of the band of starving caribou eaters is believed to be 250 miles northwest in the barren lands.

Indian Killed In Jump From Aeroplane

Trying Stunts With Parachutes One Failed To Open

Jack Miller, an Indian at Santa Monica, Cal., is dead as a result of a jump from a biplane with ten parachutes, intending to use them one by one, until he had discarded all but the last one.

He successfully cut loose from three parachutes, but when he cast away the fourth he was so close to the ground that the para-cord failed to open. He fell 100 feet, sustaining injuries from which he died.

Asthma No Longer Dreaded

The dread of renewed attacks from asthma has no hold upon those who have learned to control it. J. J. Adams, a business remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and keep it for yourself.

Date Not Yet Fixed

Correspondence in regard to the next Imperial conference has been passing between the British and Dominion Governments. The date suggested for the conference, if it is understood, is at the end of October, but so far as can be ascertained, there has not yet been a definite agreement.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest, and if not attended to endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

From Rome To

Washington By Auto

Ambitious Plan of Italian Engineer May Be Put Into Effect

Anton Dalni, an Italian engineer, with the support of the Italian Government, announces he will attempt the unusual—5,000 car trip from Rome to Washington.

Dalni's plans read as a trip from Jules Verne. He announces that he has invented an amphibious motor car, which will be able to navigate rivers and not too stony seas. The intercontinental journey will start his venturesome journey from Venice, going to Trieste, thence to Constantinople, Trebizond, India, Burma, Indo-China, China, Japan and Vladivostok.

From Vladivostok, Dalni plans to head his amphibious auto-trip for the Behring Straits and leaving the land will drive his navigable motor car across the Behring Straits to Northern Canada, thence to Edmonton, Winnipeg, Chicago, Cleveland, Buffalo, New York, Philadelphia and Washington. Date for the departure has not yet been set.

A Clever Answer

A newspaper publisher offered a prize for the best answer to the conundrum, "Why is a newspaper like a woman?" The prize was won by a lady who sent in this answer: "Because every man should have one of his own and not run after his neighbor's."

Don't think that because a soft answer turns away wrath that it will turn the same way with a book agent.

MAY PROSECUTE WITNESSES IN CUSTOMS PROBE

Montreal.—R. Calder, K.C., counsel for the parliamentary committee investigating the fraud charges in connection with the department of customs and excise, is prepared to institute proceedings against witnesses who might incur the charge of perjury. "The issue of dealing with perjury," he said, "has been very properly raised by H. P. Sparks, president of the Commercial Protective Association, as far as I am concerned, I am prepared to recommend and institute proceedings."

"The public must not get impatient," he stated, when commenting on progress so far. "All deep inquiries must start and develop slowly. Desirable investigations usually start with a bang and end with a snail. During the past two weeks," he continued, "the members of the committee have been securing the production of documents on which the work will largely be based. Several hundred files are now under examination and all those relevant to the scope of the inquiry will be put before the committee by the best primary evidence available."

"Some criticism has been made of what is called 'legal quibbling.' This criticism is chiefly leveled at the barring of hearsay evidence. It must be evident to any person that the rules of proof must be followed if justice is to be obtained."

"It is my intention to clean up issues raised by the Duhon report about which there has been so much curiosity, and then to bring before the committee certain classifications of customs infractions and lapses."

Vagrant Children Of Russia Form Unions

Bandit Gangs Give Themselves Union Names and Status

Moscow.—Following literally the Communist slogan, "workers of the world unite," groups of Russian children in Russia have formed themselves into local "trade unions" and "guilds."

In the Shadrinsk district of the Ural, the street gamins have organized a pickpocket "trust," the specialty of which is robbing.

In Ekaterinburg groups of homeless boys who have specialized in petty larcenies have joined into the Young Bandit Union. Among the "unions" established by "parentless" children in Moscow is the "Amalgamated Brotherhood of Young Begging Thieves."

Liner Will Be Scrapped

Empress of Japan Sold to Iron Merchant of Kobe

Victoria.—The old Canadian Pacific liner Empress of Japan, once the fastest of her kind on the British run, has been sold to T. Kamagawa, of Kobe, for 117,000 yen (approximately \$55,000), and will be taken to Japan to be scrapped, according to advices received here from Japan. The vessel, which had been lying idle at Vancouver for several years past, will be delivered in April or May. Kamagawa, purchaser of the ship, is a Kobe iron merchant.

Sign Migration Agreement

Brisbane, Australia.—The government of Queensland has signed the migration agreement to which the British Government is a party and under which the maximum amount of \$24,000,000 (\$10,840,000) is to be allotted to the Australian states for the settlement of immigrants. New South Wales is now the only state which has not signed the agreement.

Japan Protests Against Blockade

Peking.—Peking has protested the violation of the 1901 protocol requiring that communication between Peking and the sea be kept open, the protocol powers filed a protest with the Chinese foreign office against the blockade of Tientsin and demanded that they bring about its immediate cessation by both hostile factions.

Miners Accept Agreement

Sydney.—The miners of district 26, United Mine Workers of America, have accepted by a majority of 201 the proposed agreement with the British Empire Steel Corporation. The total number of votes polled in the referendum was 4,991.

Noted Surgeon Dies

Vienne, Austria.—Prof. Friedrich Dittmer, noted for his researches in optical surgery, died recently, aged 71. He willed his body to the Anatomical School.

For Return Of Alberta Natural Resources

Measure Is Given Second Reading In The Legislature

Edmonton.—Good progress is being made with the Alberta Government's legislative programme. Over forty bills have been introduced into the house, and a number have received second reading and been passed through committee. Many of the bills are of a non-contentious nature, being consolidations and amendments of existing statutes.

The bill providing for the transfer to the province of its public lands and minerals was given second reading. Opinion on all sides of the house is unanimous in urging this measure. At present the Dominion Government owns the natural resources of the province. Premier Brownlee said that a bill embodying the agreement with the province would be introduced in the Dominion house, and he did not anticipate any serious objection. The bill was a government measure and he had in addition received assurance of support from Opposition members. Before being passed into law it would require the consent of the Imperial Parliament, but other provinces objected, there would be no difficulty there.

The Alberta legislators are also unanimous in asking the Dominion to give the public utilities board of the province control over all utilities which recently commenced in Alberta.

The province is interested in rail ways north of Edmonton to the extent of \$35,000,000. None of these railways are paying their way.

The Edmonton, Dunsmuir and British Columbia Railway Company was the subject of an all day debate in the house. The Liberals demanded to know what progress was being made in the negotiations for the disposal of these railways, but the government was reticent in refusing to disclose at this time the progress of the negotiations. However, they promised a statement before the close of the session.

The point pressed by the Opposition was that the people of the north country were suffering from the uncertainty resulting from the delay, but government speakers said that no possible agreement could give the people bordering on the line any better rate conditions than at present. Further more, the people of the province as a whole were interested in their ultimate disposal, as well as the people of the north.

Wheat Pool Payment

Interim Payment of About \$37,000,000

To Three Prairie Provinces

Regina.—The following announcement was issued by A. J. McPhail, president of the Canadian Co-operative Wheat Producers' Limited:

"The wheat pools in the three provinces, Manitoba, Saskatchewan and Alberta, are making an interim payment of 20 cents per bushel on all grades of wheat. On coarse grains a payment of six cents per bushel is made on oats and barley, ten cents on rye, and 25 cents on all other grades."

"As a result of this distribution, the initial payment on the different grades on and after March 11, will be as follows:

"Wheat, \$1.20, basis 1, Fort William; oats, 40 cents, basis 1, C.W.F.; Fort William; barley, 56 cents, basis 1, C.W.F.; Fort William; flax, \$1.75, basis 1 N.W.; Fort William; rye, 80 cents, basis 1 C.W.F. Fort William."

"Approximately 190,000 cheques will be mailed" through the three provincial offices amounting to a total of about \$37,000,000."

Urges Acceptance Of Design

Winnipeg.—Taking the stand that the status of the prize-winning Canadian design is endangered by the present opposition to the prize-winning design, submitted by Edward Hahn, Toronto sculptor, the Canadian Club of Winnipeg urged the unequalled acceptance of the design. Hahn, who was born in Germany, has been a resident of Canada for 28 years and was naturalized on becoming an age.

Druse Tribesmen Lose Heavily

Helmet, Syria.—The Druse tribesmen who are fighting against the French have suffered serious losses in a heated engagement in the environs of Damascus. The French claim to have lost only one officer and two men killed.

Revealed By Blunder

Victoria.—Through a blunder in the details of a big Japanese naval construction programme were laid bare recently according to advices from Tokyo by the liner Empress of Australia which arrived here.

Trouble With Turkey

British Ambassador Leaves Post As Result of Action Taken Against British Interests

Constantinople.—Anglo-Turkish relations took an unsatisfactory turn when Sir Ronald Lindsay, the British ambassador, suddenly departed for London. This created an air of pessimism in foreign circles.

Ambassador Lindsay returned from Ankara, whence he had gone to protest against the recent action of Turkey in closing the English high school and threatening a similar move against the British bank. It is understood that Sir Ronald told Ruzhdi Bey, the foreign minister, that Turkey had violated the Lausanne Treaty and that he was unable to resume the Mosul negotiations unless the authorities desisted from the action which was considered inimical to British interests.

The fact that the ambassador assumed an attitude of silence is considered as indicating that he considered Turkey had provoked a situation which could not be discussed without consultation with the British foreign office.

MOVEMENT OF CANADIAN WHEAT CONTINUES LIGHT

Fort William.—Following is the report of E. A. Ursell, statistician to the board of grain commissioners on the movement of Western Canadian grain during February.

"Conditions surrounding the marketing and movement of Canadian grain during the month of February remained almost exactly similar to those obtaining during January. The demand from European importers is quite slight, while supplies in Europe being limited to the extent that no considerable quantities of Argentine and Australian wheats are arriving, which will furnish the bulk of the immediate import requirements. Beyond certain quantities of high grade wheat, necessary to millers producing white while good quantities of Argentine and Australian wheats are arriving, which will furnish the bulk of the immediate import requirements. Beyond certain quantities of high grade wheat, necessary to millers producing white while good quantities of Argentine and Australian wheats are arriving, which will furnish the bulk of the immediate import requirements."

The movement of Canadian wheat into consignments and export channels continues very moderate in sequence. From the head of the lakes the rail movement to the seaboard is extremely light. The unloading of winter storage cargoes afloat at Canadian lower lake ports for movement to the seaboard for export has also been slow, almost 2½ million bushels still remaining to be disposed of, while at Buffalo and other United States ports the total represents another 2½ million bushels.

Vancouver's steady shipment continues, averaging 14 million bushels received and shipped each week.

"Ocean freight rates from Vancouver continue around 30 shillings per ton to United Kingdom and continent, and 14½ to 16 to the Orient. The small movement from Atlantic ports, however, has made it difficult, at times, for liners to obtain 'bottom' cargoes and rates have fallen most markedly."

New Chemical Element

Urbana, Ill.—Honoring the state and the University of Illinois, the newly-discovered chemical element number 61 is to be called Ithulium.

C. N. R. Brings Season's First British Family

Mr. and Mrs. Percy Mobey and their family of six husky children were the first arrivals this season from Great Britain under the "3,000 Family Scheme" of the British Empire Settlement Board. The family set in a screened box accompanied them to their new home on Vancouver Island via the Canadian National Railway.

The Mobey's, who arrived in Canada about the middle of February, have taken up one of the improved farms of the Canadian Land Settlement Board near Victoria. Mr. Mobey was a farm laborer at Evely, Northamptonshire. His children range from two to 16 years of age. The buildings on their new farm are ready for occupation and everything is in readiness for the spring work.

Young Canadians Should Be Steeped In Things Canadian

Vancouver.—To promote Canadian sentiment we should begin in the schools. Every young Canadian should be steeped in things Canadian.

"It should be taught, Canadian history as to other things is taught. That is not being done," H. C. Nicholas, editor of the Victoria Times, declared in addressing the board of trade here.

"Only on the broad ground of a personality Canadianism can this country be unified," he declared. "Promotion of Canadian consciousness rests on two basic, the first, sentiment or ideal and the second, material or economic."

As a definite formula for creating unity in Canada, Mr. Nicholas advocated increased immigration, the cultivation of foreign trade and the waging of a vigorous campaign of publicity in Eastern Canada to convince people that British Columbia and the port of Vancouver are great national assets.

M. Uden, alluding to the strong position maintained by Spain and Brazil for permanent place, pointed out that other countries seemed also to have sent delegates to Geneva with unalterable mandates, added that by other nations only for Germany at the present moment, he was serving the highest interests of the league.

The Swedes assert that the allied powers, notably France, made a powerful bid, not only for the election of Poland, but that they did not insist upon Poland being accorded a permanent seat.

Alberta's Finances Improved

Report of Provincial Secretary Shows Surplus in Place of Deficit

Edmonton.—The public accounts of the Province of Alberta, which were laid before the Provincial Legislature by the Provincial Treasurer, Hon. G. G. Reid, show that, with an actual deficit of \$368,168 for 1925 turned into an actual surplus of \$188,019 (as announced by Premier Brownlee during the debate on the speech from the throne), the total improvement on estimates for the year 1925 was \$556,178.

Actual revenue on income account exceeded estimated revenue by \$309,918, while actual expenditures on income account were reduced by \$241,261 below estimated expenditures.

The total net bonded debt was increased by \$251,888 over 1924.

SUBMIT OFFER TO PURCHASE BIG ELEVATOR PLANT

Regina.—An agreement covering the offer to purchase the elevator system of the Saskatchewan Co-operative Elevator Company, as approved by the pool delegates at an extraordinary general meeting held February 17 to 19, has now been forwarded to that company.

The complete system included in the offer to purchase, comprises 451 country elevators, together with annexes, agents' houses, etc., two terminal elevators at Fort Arthur, namely, Terminal No. 1 with a storage capacity of 1,200,000 bushels, and Terminal No. 2 with a total capacity of 5,500,000 bushels, the Transfer Elevator at Buffalo, New York, the company's leasehold interest in the C.N.R. Terminal at Fort Arthur, which has a storage capacity of approximately 1,500,000 bushels, and company's office building in the city of Regina, together with furniture, fixtures, etc.

The value of the entire system is to be determined by a board of arbitration composed of three arbitrators, of whom the pool shall select one, the Elevator Company another, and these two shall select a third. The agreement provides that the three arbitrators are to be appointed within ten days and the third within twenty days after the Elevator Company has notified the pool of its acceptance of the offer.

The sum of \$500,000 in cash will be deposited by the pool prior to the holding of the special general meeting of the Elevator Company, and \$1,500,000 will be paid by the pool on August 1, 1926, making a total payment to the company of \$2,000,000. The balance of the purchase price will be paid in equal annual consecutive instalments of \$1,000,000, which will be paid with interest at the rate of 6 per cent per annum, are payable on August 1 of each year.

The pool reserves the right to pay off the whole or any part of the purchase price at any convenient date before maturity without notice or bonus.

Discuss Change Of League Headquarters

Opinion Expressed That Geneva Is Not Entirely Suitable

Geneva.—Lord Cecil presided at a meeting of delegates from the dominions to the league assembly at which the situation here was discussed. A great part of the meeting was given over to the question of building a new assembly hall for the league sessions.

He raised the whole question of Geneva's suitability as league headquarters and various views were expressed concerning the cost of living and Geneva's economic and geographic position. Several delegates spoke of the necessity of investigating whether a more suitable centre might be found.

Sugar Shortage In Turkey

Constantinople.—Turkey is suffering from a sugar shortage, which recalls the scarcity experienced in most countries during the war. Sugar beet growers are doing a thriving business owing to the government's failure to organize the necessary machinery for operating its recently announced monopoly of the sugar business.

FIX RATE FOR MOVING ALBERTA COAL TO EAST

Ottawa.—Agreement on a tentative rate of \$9 a ton for hauling coal from Alberta to Eastern Canada was reached at a conference today between Hon. Charles Stewart, minister of the Interior, Sir Henry Thornton, president of the Canadian National Railway, and E. J. Garland, D. M. Kennedy and L. H. Joffe, representing federal members from Alberta and four coal operators. The nine-dollar rate is subject to approval by the provincial governments interested.

After the conference, Mr. Garland stated that the agreement provides for the haulage of 200,000 tons of Alberta coal, or whatever quantity can be moved between now and the time that the railway commission issues its finding on the coal rate. The hearing on this matter takes place before the commission in April. Mr. Garland said that under the agreement reached today the \$9 rate is not final. The actual amount to be paid is in the out-of-pocket coal rate from the mines to the destination. The proposed rate is to be referred to the provinces for their approval of the increase over the \$7 rate in the coal proposed until their approval is gained, the Dominion Government will guarantee the \$2 difference.

Toronto.—Holding that the acceptance on the part of Ontario of the \$9 freight rate on Alberta coal proposed by the Ontario and Dominion governments might be construed as an admission by this province that such a rate was fair and adequate, Premier Ferguson, in statement, said that such a rate would not be acceptable to the province and that such an agreement could not be entered into.

Portugal Ordered British Warships.

Lisbon, Portugal.—The Lario Notice says Great Britain has offered Portugal four warships for \$250,000, allowing her facilities for payment. The warships are not obsolete, the paper says, but the British desire to substitute more modern vessels for them.

Town Razed By Hurricane

Vicenza.—Dispatches to the Arbeiter Zeitung say the town of Livorno in Romania was razed by a hurricane and that the entire population is homeless. No mention is made of casualties.

Teach Canadian History

Young Canadians Should Be Steeped In Things Canadian

Vancouver.—To promote Canadian sentiment we should begin in the schools. Every young Canadian should be steeped in things Canadian.

"It should be taught, Canadian history as to other things is taught. That is not being done," H. C. Nicholas, editor of the Victoria Times, declared in addressing the board of trade here.

"Only on the broad ground of a personality Canadianism can this country be unified," he declared. "Promotion of Canadian consciousness rests on two basic, the first, sentiment or ideal and the second, material or economic."

As a definite formula for creating unity in Canada, Mr. Nicholas advocated increased immigration, the cultivation of foreign trade and the waging of a vigorous campaign of publicity in Eastern Canada to convince people that British Columbia and the port of Vancouver are great national assets.

Coal Probe Was Costly

Inquiry Into Nova Scotia Mining Industry Cost About \$300,000

Halifax, N.S.—It was divulged in House of Assembly during consideration of the estimates that Sir Andrew Rae Duncan, chairman of the Royal Commission, who recently conducted an inquiry into the coal-mining industry in Nova Scotia, received \$120,000 per month as remuneration for his services and the two other members of the commission, Major Hume Cronyn, of London, Ont., and Rev. Dr. H. R. Macpherson, rector of St. Francis Xavier University, Antigonish, \$750 per month each. The members of the agricultural commission which recently completed an investigation of the industry in the province gave their services free, but received travelling expenses. The total cost of the agricultural commission was \$2,000 and of the coal commission approximately \$300,000.

Fuel Oil Tax In B.C. Illegal

Justice Morrison Of Supreme Court Hands Down Ruling

Vancouver.—The first of tax of one half cent a gallon passed by the British Columbia Legislature in 1923 and estimated to return an annual revenue of \$400,000, was declared illegal by Mr. Justice A. Morrison, in the Supreme Court, on the ground that the tax is indirect and ultra vires of the Provincial Legislature.

Although the gasoline tax of three cents a gallon, also passed in 1923 by the legislature was not directly involved in the case, the tax on oil, the statute is analogous, and the reasoning directed against the fuel oil tax is equally applicable against the constitutionality of the other. It is generally conceded that if the fuel oil tax is indirect, that of the gasoline tax is also indirect.

Planning Change In Manitoba Liquor Act

Legislation Has Been Introduced To Tighten Up Enforcement

Winnipeg.—Tightening of the enforcement of the Manitoba liquor laws with respect to foreign liquor introduced in the Manitoba Legislature by Hon. R. W. Craig, attorney-general. The legislation would limit the definition of a residence to which liquor can be taken and kept, would provide for permanent apprehension of persons accused of violation of the liquor laws, and would provide for a government appropriation of \$100,000 for enforcement of the laws, instead of \$50,000 as approved by the legislature last session.

Advocate Stricter Censorship

Montreal Organizations Want Cheap Literature Banned From Canada

Montreal.—Two local organizations, the Chambre de Commerce and the Montreal Publicity Association, took action with respect to foreign periodicals entering Canada. Indignation over what was termed the "avalanche of cheap, sordid and pornographic literature" that comes into this country from the United States was voiced by the Chambre de Commerce and the suggestion was made that a stricter censorship should be enforced.

Treed By Wolves

Ottawa.—Surrounded by a pack of wolves, two hunters, Joseph Kinsman and J. D. Oyon, Que., and Adolphe Lavoie, 42, of Ottawa, were treed for three hours in zero weather on March 3, in the woods, 85 miles north of Campbell's Bay, Ont., on the upper reaches of the Ottawa River, according to word received here.

Portugal Ordered British Warships.

Lisbon, Portugal.—The Lario Notice says Great Britain has offered Portugal four warships for \$250,000, allowing her facilities for payment. The warships are not obsolete, the paper says, but the British desire to substitute more modern vessels for them.

Town Razed By Hurricane

Vicenza.—Dispatches to the Arbeiter Zeitung say the town of Livorno in Romania was razed by a hurricane and that the entire population is homeless. No mention is made of casualties.
